

August 19, 2021

Dear Friends of LTA,

To protect the health and safety of our patrons, actors, crew, and volunteers, the Little Theatre of Alexandria will require all patrons to provide proof of full vaccination against COVID-19 to attend any performance held in our theatre after September 1, 2021. Our actors, crew, staff, and volunteers are already subject to this requirement. Masks will continue to be required for everyone when inside any of our buildings, except for actors while they are performing. "Full vaccination" means that 14 days have passed since receiving either the second dose of the Pfizer or Moderna vaccine or the single dose of the Johnson & Johnson vaccine. For proof of vaccination, patrons must bring a physical copy or digital photograph of their vaccination record.

Patrons unable to be vaccinated against COVID-19 because of age, medical condition, or sincerely held religious belief must provide proof of a negative test result for COVID-19 from PCR testing done within 72 hours prior to the scheduled curtain time of the performance. PCR testing is available at most local pharmacies, as well as at free testing sites sponsored by the City of Alexandria and other municipalities.

Our policy follows similar decisions made by most other theatres in our region, and it will continue in effect for the foreseeable future. As recommendations from government and health officials are updated, including recommendations for booster vaccinations, we will update our policy as appropriate. Thank you for your understanding and supporting the continuation of live theatre during these challenging times.

If you have further questions, please contact the LTA office at 703-683-5778 or asklta@thelittletheatre.com.

Best regards,
Frank D Shutts II
LTA President
